

September 2019

Dear colleagues,

here is the ASL Newsletter No. 96.

Interested in European networking? A new cost action with many familiar faces from the AID Action (2011-2015) is about to start: [Glioma MR Imaging 2.0](#)

## Announcements:

(by Henk-Jan Mutsaerts)

*Dear ASL users,*

*Within a (heavily European-weighted) group of investigators we have worked on extending BIDS (ecosystem overview [HERE](#), main specification [HERE](#)) with ASL. It would be great if you can review our BIDS proposal [HERE](#) and subsequently try it out with your own data, which should then be successfully validated with our updated BIDS validator. [Here](#) you will find the instructions to test your local BIDS ASL dataset according to the BIDS rules, with the BIDS validator that has been extended with ASL.*

*Anyone with significant help can be offered a co-authorship (feel free to join/earn this), otherwise it would be great to have community support for this extension of BIDS.*

*Many thanks in advance for your help,*

*Best wishes,  
Henk*

## Job Offers:

- Looking for a job near the sea? Check out the currently available position in Kiel/Germany at <https://ismrm.moincc.de/>
